EDUCATION

Duke University

B.S. Computer Science, B.S. Statistics

Expected May 2028

Durham, NC

- **GPA: 4.00** | **Honors:** Robertson Scholar (full ride, <1% acceptance, dual-enrolled at UNC-CH), National Merit Scholar
- **Activities:** Duke Impact Investing, Campus Enterprises, UNC App Team, Tech for Change, DTech Scholar
- **Relevant Coursework:** Linear Algebra, Data Structures and Algorithms, AI Ethics and Society

WORK EXPERIENCE

BrandMuse

Founding AI/ML Engineer

May 2026 – Present

- Led end-to-end development of Muse Score, a proprietary brand-creator fit algorithm integrating vector embeddings, audience engagement metrics, content themes, and demographics to generate compatibility score for **5K+** creators
- Improved LLM response relevance by **30%** by building vector-based RAG using PostgreSQL and OpenAI embeddings
- Cut API costs by **15%** by auditing usage patterns and developing company-wide dashboard to monitor spend across services

Campus Enterprises

Director of Software Engineering

Jan 2026 – Present

Durham, NC

- Generated **\$500K+** as engineer for GoBringIt, food delivery platform enabling meal-plan purchases at restaurants
- Supported **6K** customers, **20** drivers, and **6** restaurants by maintaining and troubleshooting client- and restaurant-side apps
- Cut restaurant onboarding time by **50%** by developing admin tools for menu and operating hours management

Codex x Kode with Klossy

Software Engineering Fellow

May 2026 – Jul 2026

- Selected as Kode With Klossy x Codex Fellow (<6%) to learn AI-first development in software engineering intensive
- Built Kircuit, full-stack community platform connecting Kode With Klossy alumni through events, mentorship, and resource sharing using React, Next.js, TypeScript, Drizzle ORM, and PostgreSQL

DearLegal

Software Engineering Intern

Jun 2025 – Dec 2025

- Increased attorney conversion rates by **15%** by redesigning case marketplace into a responsive card-based layout
- Brought in **80+** new cases weekly by building end-to-end onboarding for family and immigration law
- Spearheaded full-stack company rebrand, rebuilding page layouts and component styling in React across the full site

Illinois General Assembly

Technology Legislation Author

Aug 2020 – Present

Springfield, IL

- Conceived, wrote, and passed the nation's first law protecting child influencers and their income
- Spearheaded bill passage in **5** other states, including CA and UT, and introduced bill in **11** additional state legislatures
- Gained sponsorship for the bill by independently pitching to **40+** legislators and authoring **9** memos and tech policy briefs
- Garnered national coverage about myself and work from publications like [AP News](#), [The New York Times](#), [CNN](#), and [CBS](#)
- Collaborated with engineers at Meta and Google to develop screening tools so minors can request removal of their content

PROJECTS

RecycleRight: Deployed recycling assistant app, collecting and labeling a custom recycling dataset to train PyTorch image classifier (**97%** accuracy) from scratch; adopted by McLean Ecology Action Center with **600+** uploads

Recall: Built AI-powered screenshot organizer using React, Supabase, and OCR, making screenshots instantly searchable

LEADERSHIP & EXTRACURRICULAR INVOLVEMENT

Carolina App Team

App Developer

Aug 2025 – Present

Chapel Hill, NC

- Developed **2** full-stack mobile applications for nonprofits across the Research Triangle area using Swift
- Worked with designers to refine UI/UX and implement responsive, accessible interfaces, iterating based on client feedback

Duke Impact Investing Group

Consultant

Oct 2025 – Present

Durham, NC

- Consulted for a large private-equity firm operating nationally in the aesthetics, wellness, and medspa industry
- Conducted comprehensive pricing analysis for **11** different medspas, identifying revenue optimization opportunities

SKILLS AND INTERESTS

- **Technical Skills:** Java, Python, Git, Swift, PyTorch, Flask, React, HTML, Next, Tailwind, Typescript, Drizzle ORM
- **Interests:** Short stories, tennis, designing fonts, Rummikub, stationery, the New Yorker's caption contest, foraging
